

PURE CHABLIS

One grape
One region
One of a kind

Terroir of the flag-bearing Climat VAILLONS

Left bank, the Climats BEUGNONS and MÉLINOTS

The Climats BEUGNONS and MÉLINOTS are subdivisions of the flagship Climat VAILLONS and are positioned one above the other, both facing South-East. They enjoy sunshine in the first part of the day and grapes ripen quickly.

The subsoil is unusually rich in Kimmeridgian marls with *Exogyra virgula*, sometimes forming compact slabs. On the surface, the clays are sticky and challenging to work after rain.

You taste the Domaine Guy ROBIN

Chablis Premier Cru, VAILLONS, 2018

The ROBIN family launched their wine business in 1955, starting out by renting land which they then cleared and eventually purchased. They even grafted part of their vines. With hard work and passion, they slowly built up the estate to cover around 20 hectares across all Chablis appellations. Today the estate is run by daughter, Marie-Ange.

Viticulture: Grapes from the Climats BEUGNONS and MÉLINOTS. South-East exposure. Sustainable viticulture. Area 2.29ha. Average age of vines: 30 to 60 years old.

Vinification : Manual harvest. Gentle static settling for 24 hours. Alcoholic and malolactic fermentations in oak barrels (10% new oak) with indigenous flora. Ageing on lees for 80% of the cuvée in oak barrels 10 months, then 6 months in tanks. The rest is aged in tanks.
