

PURE CHABLIS

*One grape
One region
One of a kind*

Terroir of the flag-bearing Climat VOSGROS

Left bank, the Climat VOSGROS stricly speaking

VOSGROS has a beautiful South and SouthWest exposure, taking full advantage of the summer sun. Sheltered from the winds, the grapes take their time to ripen, due to its location in a very cool valley.

The soil of VOSGROS is rich with limestone and often reveals large outcrops of pebbles. The kimmeridgian base rock is not far away, and the soil is a little deeper towards the top of the plot.

You taste the Domaine Jean-Paul et Benoît DROIN Chablis Premier Cru, VOSGROS, 2019

The Domaine Jean-Paul and Benoît DROIN covers more than 25 hectares across all the Chablis AOCs, with Petit Chablis (1.3 hectares), Chablis (9 hectares), 8 Chablis Premier Cru Climats (11 hectares), 5 Chablis Grand Cru Climats (4.14 hectares). A significant number of plots have been acquired over the centuries by 13 generations of winegrowers who never left the land of their birth.

Viticulture: Grapes from the Climat VOSGROS. South/South-West-facing vines covering 0,5850 ha. Sustainable viticulture, ploughing. Average age of vines: 40 years old.

Vinification : pneumatic pressing. Settling with enzymes, alcoholic fermentation in stainless steel tanks with indigenous yeast. Malolactic fermentation. Ageing 8 to 10 months before blending.
